

UNIFIED MARITIME SERVICES

COMPLETE CAPABILITIES BROCHURE

FLOWING WORLDWIDE

www.unifiedmari.com

WHO WE ARE

Unified Maritime Services is a premier maritime and logistics company dedicated to providing world-class surveying, agency, and cargo operations. With a deep understanding of global trade dynamics, our certified master mariners and engineers deliver precise, reliable, and independent services to ship owners, charterers, P&I clubs, and underwriters.

OUR MISSION

To safeguard our clients' interests globally by providing uncompromising quality in marine surveys and seamless efficiency in agency services.

OUR VISION

To be the world's most trusted maritime partner, setting the industry benchmark for excellence, transparency, and operational flow.

MARINE SURVEYS

✓ **CONDITION SURVEYS**

FULL VESSEL ASSESSMENT FOR OWNERS, CHARTERERS & P&I CLUBS

Our Condition Surveys provide a thorough and objective assessment of the vessel's overall physical state. Conducted by internationally accredited surveyors, the survey covers hull integrity, machinery condition, safety equipment, navigational systems, and compliance with SOLAS and MARPOL standards.

✓ **P&I ENTRY SURVEYS**

CONFIRMING SEAWORTHINESS BEFORE P&I CLUB ENTRY

Before a vessel can be accepted by a P&I club, a thorough entry survey is essential. Our P&I Entry Surveys confirm the vessel meets all seaworthiness criteria, documenting existing conditions to establish a baseline for future claims.

✓ **CARGO SURVEYS**

THOROUGH INSPECTION OF LOADING, STOWAGE & DISCHARGE OPERATIONS

Our Cargo Surveys cover the complete lifecycle of cargo from pre-loading inspection through stowage supervision to discharge verification. We document cargo condition at every stage, identifying damage, shortages, or improper handling.

✓ **DRAFT & BUNKER SURVEYS**

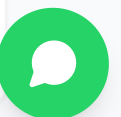

ACCURATE QUANTITY DETERMINATION OF CARGO AND FUEL ON BOARD

Draft surveys are the most reliable method for determining bulk cargo weight. Our certified surveyors take precise displacement measurements before and after loading or discharge, accounting for all variables including ballast, fuel, fresh water, and constants.

✓ **DAMAGE SURVEYS**

INDEPENDENT INVESTIGATION & DOCUMENTATION OF VESSEL OR CARGO DAMAGE

When damage occurs to a vessel's hull, machinery, or cargo, our independent Damage Surveys provide factual, unbiased documentation suitable for insurance claims, legal proceedings, and P&I correspondence.

✓ ON-HIRE / OFF-HIRE SURVEYS

DETAILED CONDITION REPORTS AT THE START AND END OF CHARTER PERIODS

On-Hire and Off-Hire surveys establish the exact condition of a vessel at the commencement and conclusion of a charter period. These reports are critical for resolving disputes between owners and charterers.

✓ POLLUTION PREVENTION

FULL COMPLIANCE CHECKS WITH MARPOL & ENVIRONMENTAL REGULATIONS

Our Pollution Prevention surveys ensure full compliance with MARPOL Annexes I through VI, covering oil pollution prevention, noxious liquid substances, sewage, garbage, air emissions, and ballast water management.

✓ ISPS & ISM AUDITS

SAFETY & SECURITY MANAGEMENT SYSTEM AUDITS FOR FULL COMPLIANCE

ISM and ISPS audits are mandatory for all SOLAS vessels. Our auditors assess Safety Management Systems (SMS) and Ship Security Plans (SSP), identifying non-conformities and providing clear corrective action guidance.

✓ HULL & MACHINERY SURVEYS

STRUCTURAL & MECHANICAL INSPECTIONS FOR VESSEL INTEGRITY & SAFETY

Hull & Machinery surveys provide a comprehensive assessment of a vessel's structural integrity and mechanical condition for insurance underwriting, pre-purchase evaluation, or periodic class requirements.

✓ THIRD-PARTY SURVEYS

NEUTRAL INDEPENDENT SURVEYS FOR BANKS, INSURERS & LEGAL PARTIES

Financial institutions, legal firms, and insurers require completely independent vessel assessments. Our Third-Party Surveys are conducted with strict impartiality and full documentation for financial transactions, legal proceedings, and insurance claims.

✔ PORT CAPTAINCY

EXPERT NAVIGATIONAL & PORT OPERATION GUIDANCE AT BERTH

Our Port Captains provide expert on-site navigational guidance for vessels during port entry, berthing, cargo operations, and departure, with deep knowledge of Middle East and Indian Subcontinent ports.

✔ CARGO SUPERVISION

SUPERVISION OF CARGO OPERATIONS WITH SAMPLING FOR QUALITY CHECKS

Continuous supervision of cargo operations minimizes risk of cargo loss, contamination, and damage. Our supervisors monitor all stages ensuring correct handling, verifying weights, and taking representative samples for lab analysis.

✔ WALL WASH TESTS

TANK CLEANLINESS VERIFICATION BEFORE LOADING SENSITIVE CARGO

Wall Wash Tests verify tank surfaces are free of previous cargo residues before loading clean petroleum products, chemicals, or food-grade cargo. Certified surveyors carry out the standard wall wash procedure and submit samples to partner laboratories.

✔ LABORATORY ANALYSIS

SCIENTIFIC TESTING OF CARGO, FUEL, AND WATER SAMPLES

Our Laboratory Analysis service provides comprehensive scientific testing for cargo quality, fuel compliance, water contamination, and chemical identification through accredited laboratories across our operating regions.

✔ LETTERS OF PROTEST

PROFESSIONAL DRAFTING & SUBMISSION OF MARITIME PROTEST DOCUMENTS

A Letter of Protest formally notes an objection, records a discrepancy, or preserves rights under a contract. Our experienced team drafts legally sound protest letters for all scenarios including cargo damage, delay, unsafe berth, and weather damage.

✓ **GAS CARGO SURVEYS**

SPECIALIST INSPECTIONS FOR LNG, LPG & ALL GAS CARRIER OPERATIONS

Gas cargo operations require specialist expertise due to unique hazards and regulatory requirements. Our Gas Cargo Surveyors have specific training in LNG, LPG, and pressurized gas carrier operations.

✓ **TANK INSPECTIONS**

PRE-LOAD INSPECTIONS TO CONFIRM READINESS FOR SPECIFIC CARGOES

Pre-load Tank Inspections confirm cargo tanks are clean, dry, and structurally suitable for the intended cargo. Surveyors check for residues, corrosion, coating damage, and contamination. Certificate of Cleanliness issued on passing.

✓ **LOAD & DISCHARGE**

END-TO-END OVERSIGHT OF CARGO OPERATIONS TO PREVENT LOSS/DAMAGE

Complete Load & Discharge supervision ensures cargo operations are conducted safely, efficiently, and in accordance with the cargo plan. Supervisors are present throughout, maintaining real-time records.

✓ **HEAVY-LIFT CARGO**

EXPERT PLANNING & SUPERVISION FOR OVERSIZED/OUT-OF-GAUGE CARGO

Oversized and heavy-lift cargo presents unique challenges. Our specialist surveyors oversee every phase from pre-shipment lashing plan review and crane operations to sea-fastening inspection and discharge.

✓ **POLLUTION RISK ASSESSMENTS**

ENVIRONMENTAL RISK EVALUATION & MITIGATION FOR ALL OPERATIONS

Before operations with potential environmental impact, our Pollution Risk Assessments identify hazards, evaluate likelihood and consequence, and recommend mitigating measures. Routinely requested by port authorities and P&I clubs.

✓ INCIDENT INVESTIGATIONS

DETAILED POST-INCIDENT ANALYSIS WITH FACTUAL, ACCURATE REPORTING

Following any marine incident — collision, grounding, fire, cargo damage, or personal injury — our investigators conduct a systematic evidence-based analysis producing factually accurate, legally sound reports.

✓ PRE-PURCHASE SURVEYS

COMPREHENSIVE VESSEL CONDITION ASSESSMENT BEFORE SALE OR PURCHASE

Our Pre-Purchase Surveys protect buyers by providing an independent, comprehensive assessment of the vessel's true condition including structural integrity, machinery, class status, certification, and existing deficiencies.

✓ BUNKER QUALITY & QUANTITY

FUEL QUALITY TESTING & QUANTITY VERIFICATION DURING BUNKERING

Our Bunker Quality & Quantity surveys deploy surveyors to monitor every stage of the bunkering operation — flow meter verification, ullage readings, representative sampling, and sample sealing — protecting owners from short deliveries and off-spec fuel.

✓ EMERGENCY RESPONSE

RAPID 24/7 ON-SITE SUPPORT DURING ANY MARITIME EMERGENCIES

Maritime emergencies don't wait. Our 24/7 Emergency Response team mobilizes day or night, weekends and public holidays. Whether grounding, collision, fire, pollution, or machinery failure — we reach the scene rapidly.

✓ CUSTOM INSPECTIONS

TAILORED INSPECTION SOLUTIONS DESIGNED AROUND YOUR SPECIFIC NEEDS

Not every inspection fits a standard template. Our Custom Inspection service is designed for clients who need a bespoke survey solution, combining multiple service types or meeting the specific requirements of a contract or regulatory authority.

AGENCY SERVICES

SHIP CHARTERING

CUSTOM CHARTER SOLUTIONS FOR VOYAGES, TIME LEASES & BAREBOAT OPTIONS

We provide comprehensive ship chartering solutions tailored to your cargo requirements. From single voyage charters and time-bound leases to bareboat arrangements, our experienced chartering team manages the entire process — from market analysis and contract negotiation through voyage execution and final settlement.

AGENCY BUSINESS

COMPLETE PORT AGENCY SERVICES FOR SMOOTH, SEAMLESS PORT CALLS

Our Agency Business services cover every aspect of a vessel's port call — from pre-arrival documentation and port clearance to berthing arrangements, cargo handling coordination, crew changes, and departure formalities. We act as the owner's trusted representative at every port in our region.

LOGISTICS

END-TO-END LOGISTICS COVERING TRANSPORT, WAREHOUSING & DISTRIBUTION

UMS offers complete logistics solutions covering land transportation, warehousing, and distribution — connecting cargo from port to destination seamlessly. Our logistics team coordinates with port authorities, customs, and transport operators to ensure timely, safe delivery.

P&I CORRESPONDENCE

REPRESENTING P&I CLUBS AND OWNERS LOCALLY FOR CLAIMS & DISPUTES

UMS acts as the local P&I correspondent for major clubs and ship-owners across the Middle East and Indian Subcontinent. We handle all aspects of P&I correspondence including accident investigation, claim documentation, legal coordination, and dispute resolution.

SHIP SERVICES

BUNKERING, PROVISIONING & CREW MANAGEMENT FOR VESSELS

Our Ship Services division handles all vessel support requirements including bunkering (ISO 8217 compliant), ship provisioning, crew welfare and management, and STCW training coordination. We ensure your vessel and crew are fully supported at every port call.

 SHIP SUPPLY**SPARE PARTS, PROVISIONS, SAFETY EQUIPMENT & CONSUMABLES WORLDWIDE**

Our Ship Supply service ensures your vessel receives everything it needs — spare parts, consumables, deck and engine stores, SOLAS-compliant safety equipment, provisions, and chemicals. We source globally and deliver locally across all our port regions.

 DRAFT SURVEY (AGENCY)**PRECISE CARGO WEIGHT DETERMINATION — TRANSPARENT AND DISPUTE-FREE**

Our agency division offers dedicated draft survey services for cargo weight determination during commercial transactions. Precise displacement measurements before and after loading or discharge give shippers, receivers, and traders an accurate, transparent, and internationally accepted cargo weight figure.
